Can you form your numbers correctly?

	Around and around like a superhero, That's the way to make a zero.
	Number one is like a stick; a straight line that is very quick.
	For number two go right around, then make a line across the ground.
	Go around, what will it be? Go around again to make a three.
	Down, across and down some more, that's the way to make a four.
	Start the five with a line on top, Go down and around then it's time to stop.
	Make a curve, then make a loop. There are no tricks to make a six!
	Across the sky and down from Heaven, that's the way to make a seven.
	Make a 's' and then don't wait, go up again to make an eight.
	Make a loop and then a line, that's the way to make a nine.
